

Tandem Swing Arm Lamp

White

Black

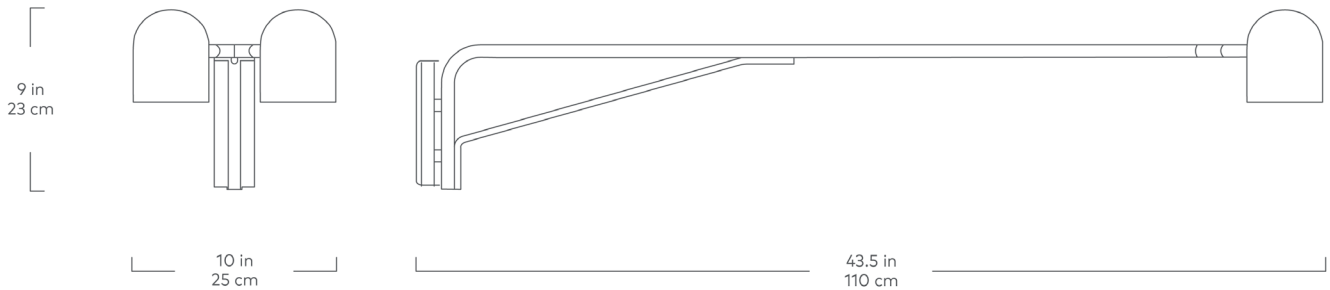

Form meets function in the forward-thinking Tandem lighting collection, which combines streamlined industrial aesthetics with a practical ethos, resulting in a simple yet stunning design. A white or black powder-coated finish shines when teamed with thoughtful details, like adjustable lamp heads, a fabric-covered cord and convenient hand switch. The adjustable swing arm allows you to customize the lighting as you please, bringing it closer when you want to curl up on the sofa with a book and allowing you to move it away from your sightline when you're deep in conversation.

Design Trade Professionals: We aim to keep our designs in stock and ready to ship quickly for projects on a tight timeline. Designs may be customized with COM and alternate finishes (minimum quantities may apply).
