

# Enfold Sideboard

“Enfold Sideboard came from the many factory visits that I do as a designer, prompting me to explore the aesthetic appeal of industrial objects. I wanted to translate this element into the modern home, combined with an appreciation of the Scandinavian design tradition. The Enfold Sideboard joins a warm touch of oak with a contemporary look of its ridged front, softening up the cold steel material and binding it together with the sideboard’s oak components. The design is a new perspective on the traditional sideboard with an at once industrial and homey feeling, characterized by its unique duality of materials.”

| <b>Description</b>           | The Enfold Sideboard combines industrial materiality with residential references for a new perspective on modern storage. Made from a lacquered steel that gently enfolds its top and bottom in solid oak, the Enfold Sideboard fuses cold and warm materials for a unique expression, paired with the vibrantly modern expression of its ridged steel doors. The flexible design is available in four sizes, which all have adjustable shelves and discreet cable outlets. This offers the opportunity to find just the right fit for your space, function and needs — be it a media console, in the hallway or a tall sideboard for storage. |
| <b>Material</b>              | Body, shelves and sliding doors in powder-coated bent steel. Top and base in solid oak treated with a clear oil (Size 186 x 45 H:48 cm and 148 x 45 H:85 cm as well as all sizes in Oak / Deep Red) or matte clear lacquer for other variants. Adjustable feet.<br><br>Size 186 x 45 H:48 cm and 148 x 45 H:85 cm as well as all sizes in Oak / Deep Red are FSC™-certified (FSC-C028824).   |

## Cleaning & Care

Powder-coated steel: Wipe off with moist cloth and remove excess liquid with dry cloth.

Solid Oak: Upon receiving your product, we recommend that top and bottom boards are treated with special oak wood oil, improving its resistance to stains and fluids. We also recommend that you continue caring for the product by repeating this treatment 2-3 times a year. Avoid placing the sideboard in the immediate distance of a heat source. Do not place hot or wet objects directly on the sideboard, as they can leave a mark on the top. Metal objects can leave a mark if left on the sideboard for a longer period of time. Clean the top often and carefully with a soft and dry cloth following the wood's grain patterns. The product should not be exposed to excessive humidity, heat, or direct sunlight.
