

Framed Mirror

“We wanted to create a mirror that was more than merely a reflective surface. Framed is a new perspective to the classic framed mirror; it is a decorative design piece that leads your thoughts to installation art. It adds not only the functionality of a mirror to your home, but with its depth, organic shape and tone-in-tone color, it is almost perceived as an art object on the wall. The Framed Mirror can hang beautifully on your walls alone or combined with other sizes and colours.”

Though still functioning as reflecting glass, the colors, shapes and its ability to be arranged in groups gives the mirror a distinct character. The design comes in two sizes and four colors.
Material	Powder coated steel. Mirror glass sheet. A steel plate is worked through three rounds to shape the mirror's frame. The surface is powder coated. Lastly, the mirror glass is gently installed to create the little gap between the mirror's frame and mirror glass.
Cleaning & Care	Clean mirror glass using a mild glass spray and a soft dry cloth.
Additional Information	The mirrors are not suited for use in bathrooms and other wet rooms. Mirrors can be mounted both vertically and horizontally.
