Linear System Configurations

"The Linear System Series places people at its center, being a place to meet, to collaborate or to work in focused solitude. The design process was about creating a system that made for intimately welcoming atmospheres, enhanced by the expression and functionality of its lighting and accessories. With its warm materiality and modern expression, the Linear System Series brings feelings of home into larger spaces to give the user a sense of belonging, even if being there only for a little while. The extensive selection of lighting and accessories means that the Linear System Series can be configured and reshuffled for any purpose of the modern workplace as well as hospitality settings and public areas, arrying the ideas of aesthetic and function into one."

Description The Linear System Table is a simple yet refined table with subtle details and references to the

Scandinavian design heritage. Its legs are cut into half-circles and joined with the table for a light expression while the slender overhang at both ends of the table makes for a refined expression.

The Linear System Table is available as a freestanding table to be used on its own, as predesigned configurations or as Middle and End Modules that can be configured to the exact needs of your

space.

Material Tabletop in Oak Veneer, Black version in Ash Veneer, Black Nanolaminate or White Laminate.

Black Nanolaminate and White Laminate has an ABS edge. It is not possible to mix multiple

tabletop finishes in a Linear System configuration.

Table frame in veneered plywood and legs in Solid Oak. Felt glides included.

Oak Veneer color variations: The Oak Veneer tabletops of the Linear System Series are made using high-quality mix-matched veneer to avoid differences in the visual appearance from tabletop to tabletop. However, wood is a natural material, and this means that slight variations can occur from

table to table.

Cleaning δ Care

Wood and Veneer Surfaces: Clean the table with a damp cloth. If necessary only use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquid, grease etc. should be removed straight away.

Laminate Surface: Clean the table with a damp cloth. If necessary use a mild detergent or washing up liquid and not concentrated. Always wipe with a dry cloth afterwards. To minimize the risk of stains and marks, liquids, grease etc. should be removed straight away.

Nano Laminate: Treat the surface with a melamine sponge, available in hardware stores, to reduce minor scratches.

Options

Accessories: Optional Screens and Trays for the Linear System. Screens are available in three sizes to be used either freestanding or mounted. Trays in three different sizes, all to be mounted. We recommend that screens are mounted to the table. Both trays and screens must be placed at least 5 cm / 2" from the table edge. Lighting: Find more information in separate Product Fact Sheets. Table Power Outlet: Each Table Power Outlet has two standard power sockets and both one USB-A and a USB-C socket. Available in region-specific versions for EU and UK. Find more information in separate Product Fact Sheet. Power Kit: Integrated power for Mounted Lamp(s), Table Lamp(s) or Table Power Outlet(s). Available in region-specific versions for EU, UK and US. Wieland Power distribution block (5-way) and Wieland cables. Find more information in separate Product Fact Sheet. Cable Tray: Cables Tray to organize and hide cables under the table. Find more information in separate Product Fact Sheet.

В

Next, add the second, and final, End Module or your desired number of Middle Modules, only available in 240 cm / 94.5".

Note

Please note that it is not possible to connect more than two End Modules.

Linear System Middle Module — 240 cm / 94.5"

Width — 146,9 cm / 57.8" Length — 240 cm / 94.5' No of Persons — 4-6

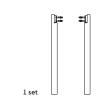

C)

Next, you must order 1 set of Connecting Legs every time two modules are connected.

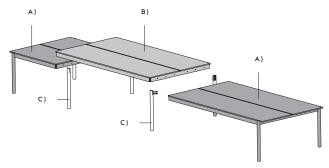

Linear System Connecting Legs

Height — 74 cm / 29.1"

If you'd like a configuration of one End Module - 240 cm / 94.5" and one Middle Module - 240 cm / 94.5" and one End Module - 240 cm / 94.5", you must order two sets of Connecting Legs, as shown in the illustration.

Linear System Cable Tray

"The Linear System Series places people at its center, being a place to meet, to collaborate or to work in focused solitude. The design process was about creating a system that made for intimately welcoming atmospheres, enhanced by the expression and functionality of its lighting and accessories. With its warm materiality and modern expression, the Linear System Series brings feelings of home into larger spaces to give the user a sense of belonging, even if being there only for a little while. The extensive selection of lighting and accessories means that the Linear System Series can be configured and reshuffled for any purpose of the modern workplace as well as hospitality settings and public areas, arrying the ideas of aesthetic and function into one."
