Linear Wood Table

"The Linear Wood Series was designed from the idea of bringing the warm and friendly sentiment of wood into a timeless, understated shape with its form language inspired by the notion of meetings—the meetings of lines and shapes. The design is defined by its straight lines for a contemporary yet honest aesthetic through the details of its thinly elegant overhang and half-circular intersecting legs. It is through these subtle elements that the Linear Wood Series translates the values of elegance, longevity and functionality into modern Scandinavian design."

Pair the table with the Linear Wood Bench, designed in proportions that allow for it to slide easily under the table.
