An elevated sleeping experience with attention to quality

Crafted with meticulous attention to detail, the new Notch Bed Frame is expertly made using 100% solid pine wood planks, showcasing the exceptional beauty and durability of the natural material. Inspired by the traditional notching technique, where one plank is inserted into another to form the joints of the furniture piece, the bed frame achieves both structural integrity and stunning decorative details at the corners. This unique joining method constitutes the main characteristic of the design, a decorative detail that distinguishes the design, making it stand out from other wooden bed frames. Notch Bed Frame's clean lines and natural finish exude an air of simplicity and elegance, allowing it to harmonize effortlessly with existing decor.

Product Facts

Description

Notch Bed Frame is crafted from 100% solid pine wood planks, joined together using a notching technique in which one plank can be inserted into another. Besides forming a durable construction, the notching technique also makes for a decorative detail on the corners of the bed. Notch Bed Frame comes in two sizes.

Designer / Year Of Design

Simon Legald / 2023

Material

UV Lacquered Pine

Construction

Notch Bed Frame is made of 100 % solid pine. The joints at the corners of the legs form a robust and durable structure, while also functioning as a decorative detail. The pine material has been coated with a UV varnish that effectively inhibits any discoloration or yellowing over extended periods. Available in two sizes. The bed frame is delivered disassembled in a flat pack.

Maintenance

Clean with a damp cloth.
