Inspired by a ladder

Francis Cayouette's distinctive One Step Up shelving unit is inspired by the form and function of a ladder. Ideal for storage, it can be used alone or as part of a shelving system including several units. One Step Up is flexible and can easily be moved from one place to another. Details, such as the fittings, are accentuated and give the shelving unit authenticity. The natural ash wood and industrial metal shelves create an interesting dynamic.

Product Facts

Description

Inspired by the ladder as an object, designer Francis Cayouette has created One Step Up – a bookcase in a simple functional design. Place various One Step Up bookcases beside each other and create your own bookcase system, or use it as a light room divider.

Design

Francis Cayouette / 2010

Material

Shelves: Powder coated steel

Frame: Lacquered ash

Construction

One Step Up comes flat-packed and is easy to assemble.

Just fold out the ladder-like frame and put the shelves in place. Load capacity: approx. 15 kg per shelf.

Maintenance

Clean with a damp cloth.

Please be aware that sharp objects can leave marks.

We recommend to check and tighten screws every 3-6 months.
