## A Dynamic Design

Rib Sideboard and Cabinet are timeless and elegant storage solutions.

The design is inspired by the architecture of Nordic summerhouses from the 1960's with wooden slats adorning the façade creating an interesting and decorative exterior. Rib continues this architectural heritage by having trapeze-shaped wooden panels, which add character to the design. The wooden slats create a visual break in the uniform surface of the front and add depth and dynamics.

To further reference the source of inspiration, Rib is designed in oak veneer with solid oak slats and base and equipped with a push latch, making handles redundant. This creates a harmonious expression mirroring a stringent wooden facade.
